

EUFOTON[®]

M E D I C A L L A S E R S

COMPANY PROFILE

Eufoton is a company that internally designs and manufactures laser, pulsed light and LED for the health care industry, cooperating with leading research centres to create innovative devices and efficient methodology, and distributing its products in Europe, Middle East, Asia and South America.

Our company was founded in 1997 by a highly specialised team operating in the medical and R&D field, nowadays our devices are successfully used

in many fields of modern medicine like Dermatology, E.N.T., Dentistry, Gynaecology and Vascular Surgery.

All of our products are CE marked and our company is certified ISO 9001 and ISO 13485 by Underwriters Laboratories to warrantee top quality instruments and service.

Our main products are the diode lasers LASEmaR™, specifically studied to be safe, resistant, and free from costs of consumables.
